

## Exploring the impact of welfare reform on the lives of disabled people, a qualitative study

UK disability benefits have changed dramatically in recent years.

The experiences of disabled people, and people with mental health or fluctuating conditions need to be understood and their voices heard.

If you have experience of Employment and Support Allowance, Personal Independence Payments or Universal Credit, then researchers from the University of East Anglia and the University of Glasgow would like to hear from you.

For more information about this research and how to take part in an interview, contact Tom Porter on **01603 597 689** or email [t.porter@uea.ac.uk](mailto:t.porter@uea.ac.uk)

Participants will be offered a £20 voucher. Costs including personal assistance and BSL interpretation will be met.

This is an advertisement of research funded by the Disability Benefits Consortium, conducted by the University of East Anglia and the University of Glasgow.
